

The Challenge Academy Trust: Summer 2021 Teacher Assessed Grades (TAG) Centre Policy

Objectives of the policy:

1. To ensure that students in Year 11 are awarded the grades that reflect what they know and can do.
2. To ensure the awarding of grades is done in a fair and consistent manner across TCAT academies, taking an evidence-based judgement of the grade each student is performing at.
3. To ensure that teacher assessment judgements are holistic and balance the different sources of reliable evidence
4. To ensure grades are objective and students are not inadvertently disadvantaged by disability, race, gender or another protected characteristic.
5. To ensure the issuing of TAGs takes account of the varying mitigating circumstances that may unfairly affect a student's grade.
6. To ensure that sufficient quality control is in place to produce fair and credible results
7. To ensure that evidence used to assess a student's ability, assess a reasonable range of subject content reflecting, where possible, all assessment objectives, as set out in qualification specifications.

Overview: The awarding of TAGS will follow 3 broad steps:

Plan/Create a Valid Evidence Base (PORTFOLIO)

- Centres to generate a portfolio of data that is valid, broad, robust and fair. Attention should be given to the breadth of the specification being assessed or omitted.
- TCAT Subject Specialist Hubs to play a role in moderating the interpretation of the data, the validity of the judgements being made and the breadth of the specification being assessed.

Complete assessments/Fill Portfolios

- Students will complete further assessments as needed. Consideration will be given to the interpretation of data through the lens of access arrangements. Mitigating circumstances will be considered.
- Subjects to maintain a tracker of raw scores.

Moderation/QA/Sign Off

- Heads of Department to moderate and standardise the issuing of grades by teaching staff. Heads of Department to ensure grades are broadly in line with those of previous years, taking account of small cohorts and improving trends. Heads of Department to ensure access arrangements have been applied.
- SENDCo to review grades of students with access arrangements.
- Centres to assure objectivity
- TCAT Subject Specialist Hubs to undertake sampling/moderation activity 7th June – 10th June

Training, support and guidance

This section of our Centre Policy outlines the training, support and guidance that our centre will provide to those determining teacher assessed grades this year.

Training

This section provides details of the approach our Centre will take to *training, support and guidance in determining teacher assessed grades this year*.

- *Teachers involved in determining grades in our Centre will attend any centre-based training to help achieve consistency and fairness to all students.*
- *Teachers will engage fully with all training and support that has been provided by the Joint Council for Qualifications and the awarding organisations.*
- *Head of Department will be supported in the QA of their evidence choices by TCAT Subject Specialist Hub leads*
- *Heads of Centre will be support in their application of the policy by CEO/Director of Standards*
- *All staff involved have been briefed on the possibility of interaction with awarding organisations during the different stages of the External Quality Assurance process and can respond promptly and fully to enquiries, including attendance at Virtual Visits should this prove necessary.*
- *All staff will complete Hayes Online Training: Unconscious Bias*

Support for Newly Qualified Teachers and teachers less familiar with assessment

This section provides details of our approach to *training, support and guidance for newly qualified teachers and teachers less familiar with assessment*.

- *We will provide mentoring from experienced teachers to NQTs and teachers less familiar with assessment.*
- *We will put in place additional internal reviews of teacher assessed grades for NQTs and other teachers as appropriate.*

Use of appropriate evidence

This section of our Centre Policy indicates how our centre will give due regard to the section in the JCQ guidance entitled: *Guidance on grading for teachers*.

A. Use of evidence

This section gives details in relation to our use of evidence.

- *Teachers making judgements will have regard to the Ofqual Head of Centre guidance on recommended evidence, and further guidance provided by awarding organisations.*
- *All candidate evidence used to determine teacher assessed grades, and associated documentation, will be retained and made available for the purposes of external quality assurance and appeals where possible.*
- *We will use an appropriate range of evidence suited to individual subjects to include where appropriate:*
 - *student work produced in response to assessment materials provided by our awarding organisation(s), including groups of questions, past papers or similar materials such as practice or sample papers.*
 - *non-exam assessment work (often referred to as coursework), even if this has not been fully completed.*
 - *student work produced in centre-devised tasks that reflect the specification, that follow the same format as awarding organisation materials, and have been marked in a way that reflects awarding organisation mark schemes.*
 - *substantial class or homework (including work that took place during remote learning).*
 - *internal tests taken by students.*
 - *mock exams/PPEs taken over the course of study.*
 - *records of a student's capability and performance over the course of study in performance-based subjects such as music, drama and PE.*
- *We will use **Appendix 2 TCAT guidance of weighting, reliability and validity** to guide the balance of evidence used.*
- *We will use additional assessment materials to give students the opportunity to show what they know, understand or can do in an area of content that has been taught but not yet assessed.*

- We will use additional assessment materials to give students an opportunity to show improvement, for example, to validate or replace an existing piece of evidence.
- We will use additional assessment materials to support consistency of judgement between teachers or classes by giving everyone the same task to complete.
- We will combine and/or remove elements of questions where, for example, a multi-part question includes a part which focuses on an element of the specification that hasn't been taught.

Our Centre will ensure the appropriateness of evidence and balance of evidence in arriving at grades in the following ways:

- We will consider the level of control under which an assessment was completed, for example, whether the evidence was produced under high control and under supervision or at home.
- We will ensure that we are able to authenticate the work as the student's own, especially where that work was not completed within the school or college.
- We will consider the limitations of assessing a student's performance when using assessments that have been completed more than once, or drafted and redrafted, where this is not a skill being assessed.
- We will consider the specification and assessment objective coverage of the assessment.
- We will consider the depth and breadth of knowledge, understanding and skills assessed, especially higher order skills within individual assessments.

We provide further detail in the following areas:

Additional Assessment Materials

Determining teacher assessed grades

This section of our Centre Policy outlines the approach our centres will take to awarding teacher assessed grades.

Awarding teacher assessed grades based on evidence

We give details here of our Centre's approach to awarding teacher assessed grades.

- Our Heads of Department will agree the evidence that is being used by teachers in their department.
- Our teachers will determine grades based on evidence which is commensurate with the standard at which a student is performing, i.e. their demonstrated knowledge, understanding and skills across the content of the course they have been taught.
- Our teachers will record how the evidence was used to arrive at a fair and objective grade, which is free from bias.
- Our teachers will produce an Assessment Record for each subject cohort and will share this with their Head of Department. Any necessary variations for individual students will also be shared.

Internal quality assurance

This section of our Centre Policy outlines the approach our centres will take to ensure internal standardisation of teacher assessed grades, to ensure consistency, fairness and objectivity of decisions.

Internal quality assurance

This section gives details of our approach to internal standardisation, within and across subject departments.

- We will ensure that all teachers involved in deriving teacher assessed grades read and understand this Centre Policy document.
- In subjects where there is more than one teacher and/or class in the department, we will ensure that our Centre carries out an internal standardisation process.
- We will ensure that all teachers are provided with training and support to ensure they take a consistent approach to:
 - Arriving at teacher assessed grades
 - Marking of evidence
 - Reaching a holistic grading decision
 - Applying the use of grading support and documentation
- We will conduct internal standardisation across all grades.
- We will ensure that the Assessment Record will form the basis of internal standardisation and discussions across teachers to agree the awarding of teacher assessed grades.

- Where necessary, we will review and reflect on individual grading decisions to ensure alignment with the standards as outlined by our awarding organisation(s).
- Where appropriate, we will amend individual grade decisions to ensure alignment with the standards as outlined by our awarding organisation(s).
- Where there is only one teacher involved in marking assessments and determining grades, then the output of this activity will be reviewed by an appropriate member of staff within the Centre.
 - This will be a member of the Senior Leadership Team and a TCAT Hub Lead
- In respect of equality legislation, we will consider the range of evidence for students of different protected characteristics that are included in our internal standardisation.

Comparison of teacher assessed grades to results for previous cohorts

This section of our Centre Policy outlines the approach we will take to compare our teacher assessed grades in 2021 with results from previous cohorts.

Comparison of Teacher Assessed Grades to results for previous cohorts

This section gives details of our internal process to ensure a comparison of teacher assessed grades at qualification level to results for previous cohorts in our Centre taking the same qualification.

- We will compile information on the grades awarded to our students in past June series in which exams took place (e.g. 2017 - 2019).
- We will consider the size of our cohort from year to year.
- We will consider the stability of our Centre's overall grade outcomes from year to year.
- We will consider both subject and centre level variation in our outcomes during the internal quality assurance process.
- We will prepare a succinct narrative on the outcomes of the review against historic data which, in the event of significant divergence from the qualifications-levels profiles attained in previous examined years, which address the reasons for this divergence. This commentary will be available for subsequent review during the QA process.

This section gives details of the approach our Centre will follow if our initial teacher assessed grades for a qualification are viewed as overly lenient or harsh compared to results in previous years.

- We will compile historical data giving appropriate regard to potential mixtures of A*-G and 9-1 grades in GCSEs. Where required, we will use the Ofqual guidance to convert legacy grades into the new 9 to 1 scale.
- We will bring together other data sources that will help to quality assure the grades we intend to award in 2021.

This section gives details of changes in our cohorts that need to be reflected in our comparisons.

- Fisher Family Trust (FFT) is used to compare cohort ability on entry compared to national benchmarks

Access Arrangements and Special Considerations

This section of our Centre Policy outlines the approach our centre will take to provide students with appropriate access arrangements and take into account mitigating circumstances in particular instances.

Reasonable adjustments and mitigating circumstances (special consideration)

This section gives details of our approach to access arrangements and mitigating circumstances (special consideration).

- Where students have agreed access arrangements or reasonable adjustments (for example a reader or scribe) we will ensure that these arrangements are in place when assessments are being taken.
- Where an assessment has taken place without an agreed reasonable adjustment or access arrangement, we will remove that assessment from the basket of evidence and alternative evidence obtained or we will take account of this when making judgements.
- Where illness or other personal circumstances might have affected performance in assessments used in determining a student's standard of performance, we will take account of this when making judgements.
- We will record, as part of the Assessment Record, how we have incorporated any necessary variations to take account of the impact of illness or personal circumstances on the performance of individual students in assessments.
- To ensure consistency in the application of Special Consideration, we will ensure all teachers have read and understood the document: [JCQ – A guide to the special consideration process, with effect from 1 September 2020](#)

Addressing disruption/differential lost learning (DLL)

B. Addressing Disruption/Differentiated Lost Learning (DLL)

This section gives details of our approach to address disruption or differentiated lost teaching.

- *Teacher assessed grades will be determined based on evidence of the content that has been taught and assessed for each student.*

Objectivity

This section of our Centre Policy outlines the arrangements in place to ensure objectivity of decisions.

Objectivity

Staff will fulfil their duties and responsibilities in relation to relevant equality and disability legislation.

Senior Leaders, Heads of Department and Centre will consider:

- *sources of unfairness and bias (situations/contexts, difficulty, presentation and format, language, conditions for assessment, marker preconceptions);*
- *how to minimise bias in questions and marking and hidden forms of bias); and*
- *bias in teacher assessed grades.*
- *Mitigating circumstances which may disadvantage a student(s)*

To ensure objectivity, all staff involved in determining teacher assessed grades will be made aware that:

- *unconscious bias can skew judgements;*
- *the evidence presented should be valued for its own merit as an indication of performance and attainment;*
- *teacher assessed grades should not be influenced by candidates' positive or challenging personal circumstances, character, behaviour, appearance, socio-economic background, or protected characteristics;*
- *unconscious bias is more likely to occur when quick opinions are formed*

We will manage all mitigating circumstances objectively, using "A Guide to the special consideration process General and Vocational qualifications with affect from 1 September 2020" JCQ. (See Appendix 4)

All staff will complete The Hays Online Learning Module: Unconscious Bias

Our internal standardisation process will help to ensure that there are different perspectives to the quality assurance process.

Our Trust wide standardisation process will help to ensure that there are different perspectives to the quality assurance process.

Recording decisions and retention of evidence and data

This section of our Centre Policy outlines our arrangements to recording decisions and to retaining evidence and data.

C. Recording Decisions and Retention of Evidence and Data

This section outlines our approach to recording decisions and retaining evidence and data.

- *We will ensure that teachers and Heads of Departments maintain records that show how the teacher assessed grades process operated, including the rationale for decisions in relation to individual marks/grades.*
- *We will ensure that evidence is maintained across a variety of tasks to develop a holistic view of each student's demonstrated knowledge, understanding and skills in the areas of content taught.*
- *We will put in place recording requirements for the various stages of the process to ensure the accurate and secure retention of the evidence used to make decisions.*
- *We will comply with our obligations regarding data protection legislation.*
- *We will ensure that the grades accurately reflect the evidence submitted.*
- *We will ensure that evidence is retained electronically or on paper in a secure centre-based system that can be readily shared with our awarding organisation(s).*

Authenticating evidence

D. Authenticating evidence

This section of our Centre Policy details the mechanisms in place to ensure that teachers are confident in the authenticity of evidence, and the process for dealing with cases where evidence is not thought to be authentic.

- *Robust evidence, which will include; mock exams, key piece assessments completed under conditions of high level control and a signed Candidate Declaration confirming that the work in the portfolio of evidence used to determine their grades is their own work, will be in place to ensure that teachers are confident that work used as evidence is the students' own and that no inappropriate levels of support have been given to students to complete it, either within the centre or with external tutors.*
- *It is understood that awarding organisations will investigate instances where it appears evidence is not authentic. We will follow all guidance provided by awarding organisations to support these determinations of authenticity.*

Confidentiality, malpractice and conflicts of interest

Confidentiality

This section of our Centre Policy outlines the measures in place to ensure the confidentiality of the grades our centre determines, and to make students aware of the range of evidence on which those grades will be based.

Conflicts of Interest

This section of our Centre Policy outlines the measures in place to address potential conflicts of interest.

C. Conflicts of Interest

This section details our approach to addressing conflicts of interest, and how we will respond to such allegations.

- Our Head of Centre will take appropriate action to manage any conflicts of interest arising with centre staff in accordance with the JCQ documents - [General Regulations for Approved Centres, 1 September 2020 to 31 August 2021](#).
- We will also carefully consider the need if to separate duties and personnel to ensure fairness in later process reviews and appeals.

External Quality Assurance

Appendix 2

TCAT guidance of weighting, reliability and validity

More weighting should be placed on the most recent and reliable sources of assessment data.

Ofqual recommends that teachers use:

- Students' work based on the exam board's assessment materials, like practice papers.
- Coursework, even if it's incomplete. Teachers shouldn't penalise students if they haven't completed it because their learning was disrupted
- Tasks your school has come up with that follow the same format as exam board materials and that are marked in the same way too, such as:
 - Substantial classwork or homework, including if students completed it during remote learning (if this is the case, teachers should make sure it's the student's own work)
 - Internal tests
 - Mock exams
- Records of a student's capability and performance in subjects such as music, drama and PE
- A student's overall progress and performance in a subject

GCSE, AS and A-level art and design: students' grades must be based on the portfolio only, even if they haven't been completed.

How should they balance different sources of evidence?

Teachers should consider:

- How recently students produced the work - more recent work is likely to give a better picture of performance
- Whether the work was appropriately challenging
- How confident they are that it's students' own work. Exam boards will investigate any suspiciously inauthentic evidence

TCAT recommends the following as a guide to weighting:

Reliability	Evidence
High	Students' work based on the exam board's assessment materials, Year 11 mocks, practice papers
High	Tasks your school has come up with that follow the same format as exam board materials and that are marked in the same way too,
High	NEA assignments
Medium	Key assessed pieces done in class
Low	Previously seen task eg. Resits of the same papers.
Low	Key assessed pieces done at home
Low	Y10 Mock exam data
Low	Evidence of work completed with a private tutor

Assessment Record for determining teacher assessed grades in Summer 2021

Background

Every centre must produce an Assessment Record for each subject cohort, that includes the sources of the assessment evidence being used and the rationale for the choice of evidence, the level of control for assessments considered, and any other evidence that explains the determination of the final teacher assessed grades. Any necessary variations for individual students must also be recorded.

Your Assessment Records must take account of the guidance provided in the document: JCQ Guidance on the determination of grades for A/AS Levels and GCSEs for summer 2021

SECTION A: Assessment Evidence Form [To be completed by the Head of Department for each subject.]

Please detail the assessments used for the subject cohort (i.e. assessment resource, mock examination, controlled assessment, homework etc.). The Assessment Evidence Form should include the sources of the assessment evidence being used and the rationale for the choice of evidence, the level of control under which assessments were completed (i.e. exam-type conditions would provide a high degree of control), and any other evidence that explains the determination of the final teacher assessed grades.

Note: Ideally, the evidence used will be consistent across the class or cohort but that may not always be the case if a student has missed some teaching, or one or more assessments, for valid reasons. Any necessary variations for individual students should be recorded using the additional form below. Indicate which assessment objectives were covered in each piece of assessment evidence (Y/N), and whether the assessment was conducted with a High (H), Medium (M) or Limited (L) level of control.

	Type of Assessment	Unit __				Unit __				Unit __				Level of Control H, M, L
		AO1	AO2	AO3	AO4	AO1	AO2	AO3	AO4	AO1	AO2	AO3	AO4	
Assessment 1: [e.g. Mock examination taken on 3 January 2020]	[e.g. Examination]	Y/N	Y/N	Y/N	Y/N	Y/N	Y/N	Y/N	Y/N	Y/N	Y/N	Y/N	Y/N	[e.g. H]
Assessment 2: [identifier]														
Assessment 3: [identifier]														
Assessment 4: [identifier]														
[add/delete as necessary]														

If an assessment objective has been omitted at subject cohort level please briefly outline the reasons why:-

Outline the rationale for the choice of assessment evidence used, i.e. why the evidence above was used and how it supported the grading decision:-
