Human Papillomavirus (HPV) Vaccination Programme

Dear Parent/Guardian,

We are offering the HPV vaccine to boys and girls in **Year 8** as part of the national school-aged vaccination programme.

The HPV vaccination programme can help to protect young people against some types of HPV related cancers. The HPV vaccination programme in the UK consists of two doses of the vaccine for young people who start the course before their 15th birthday. The first dose of the vaccine is routinely offered in schools to boys and girls in year 8. A second dose is offered a minimum of 26 weeks after dose 1, which may not be in the same academic year.

To consent for your child to have the 2 doses of HPV vaccine please follow the steps outlined below. Consent should be provided by a person with parental responsibility*.

Please inform if there are any changes to your child's health, after you have completed the consent steps outlined below. Do not inform school staff of any changes. Our contact details are on the other side of this letter.
